DISCLOSURES

Source: Institutional Shareholder Services Inc. (ISS), data for Exhibit 1 and 2 are from 1/1/2018 to 6/30/2018, data for Exhibit 3 is from 1/1/2015 to 12/31/2017 and data for Exhibit 4 is from 1/1/2015 to 6/30/2018. Data indicated above are based off proxy meetings for all of Fisher Investments Institutional clients. For Professional Client Use Only. Past performance is never a guarantee of future returns. Investments in securities involve the risk of loss. Any investment program will always involve the risk of loss. Global investing can involve additional risks, such as the risk of currency fluctuations.

As an asset management firm, Fisher Investments (FI) manage shares of a wide range of companies on behalf of our clients. These shares entitle the holders to vote on various issues put forth by the company and its shareholders at the company's annual meeting or at a special meeting.

FI utilizes a third-party proxy voting service, Institutional Shareholder Services Inc. (ISS) to manage the proxy voting process and as an advisory service. ISS generally handles the operational tasks related to proxy voting, including ballot information collection and vote submissions.

For each proxy proposal, FI may vote for/with management, vote against management, vote abstain (abstentions are not cast in management's favor), vote withheld or do not vote.

The report above demonstrates how FI engages with company management on ESG proxy voting issues: environmental issues include but not limited to: climate change, toxic emissions & waste, vulnerability to legislation and impact on local communities; social issues include but not limited to: animal rights, human rights, labor relations, controversial countries and controversial weapons and governance issues include but not limited to: routine business, corporate governance, board independence, executive compensation, corporate stewardship and bribery & corruption.

FI votes proxies according to environmental resolution guidelines, as developed and maintained by ISS in the Fisher Investments Institutional ESG strategies and in select accounts given account specific mandates regarding voting in accordance with ESG principles.

We currently work with ISS to further refine our Guidelines and to track and vote our clients' proxies according to these Guidelines. While FI's Investment Policy Committee (IPC) utilizes ISS for shareholder vote recommendations, they reserve the right to override ISS recommendations as they see fit. Any IPC override is logged by the Securities Team Leader and reported to the Proxy Committee on a quarterly basis.

Identifying engagement opportunities is a part of FI's fundamental analysis and to clarify or express concerns over potential ESG issues at the firm or industry level. FI engages company management on proxy voting issues, particularly when Institutional Shareholder Services, Inc. (ISS) is in disagreement with company management.
